

ReadMe on Math143 github webpage, notes, and more

- I forgot password to Math 143 github to update the webpage.
- We have to recreate an webpage called BigDiffGeo on github
- <https://github.com/BigDiffGeo/BigDiffGeo.github.io>
- Note the account name BigDiffGeo must be the same as the github.io name, so it is BigDiffGeo.github.io

email: gu@dasion.ai (because they need a different email to create the github account in order to share with Jonathan, the TA, to collaborate on the webpage)

email password: the password for gu@dasion.ai

github: BigDiffGeo

github password: Usual (for Github) then NRL

webpage: <https://bigdiffgeo.github.io>
